Potentiometers, sensors and thick-film custom applications

QUALITY POLICY

At (ACP) Aragonesa de Componentes Pasivos, we consider Quality as one of our **core values and a key commitment in our strategy**. We establish key quality objectives that are communicated and understood at all levels of the organization. Our Quality Management System will ensure that:

- **We exceed our customers' expectations** and meet all established requirements.
- **We improve our processes** by implementing new tools and fostering a culture of Continuous Improvement.
- **We provide superior quality products on time** and in the required quantity to both our external and internal customers.
- We strive to deliver excellent **production and exceptional service** to all our clients.
- We harness the **strength of our staff** to achieve our strategic and operational goals with the maximum effectiveness and efficiency possible.
- We are committed to designing processes compatible with **Sustainability** on three fronts: **Energy efficiency**, the fight against **Climate Change** and **Socioeconomic Development**.

Ernesto Jiménez Delgado  Managing Director	Pablo Jiménez Miramón  Quality and Environment Manager
